Baltimore Aircoil Company is BridgeBuilding Supporter of 2022 Eurovent Summit

Brussels, Heist-op-den-Berg, 28 June 2022. Baltimore Aircoil Company, a world leader in development, manufacturing and distribution of evaporative cooling products, has become an official BridgeBuilding Supporter (sponsor) of the 2022 Eurovent Summit in Antalya, Turkey.

Baltimore Aircoil Company (BAC) develops, manufactures and distributes evaporative cooling products, offering innovative and sustainable cooling solutions for saving water and energy in air conditioning, refrigeration and industrial process applications. It is going to share its expertise during this year's Summit, taking place from 25 to 28 October. BAC will also be a partner of the Summit's "Legends of Eurovent" event, to celebrate the ongoing generation change within the industry and honour significant legends that have contributed to its development.

Mr David Jacobs, Vice President & Managing Director EMEA and a member of the Eurovent Board of Directors will open the night by sharing his and BAC's story within Eurovent. He stated in this respect:

"Baltimore Aircoil Company has always been a forerunner in Eurovent certification programmes. Already in 1989, BAC participated in the first discussions for cooling tower certification and finally the cooling tower certification programme was launched in 1997. 25 years after this milestone for our cooling tower industry, I'm pleased to be part of the celebration of Eurovent's history at the Summit in Antalya."

This year's **EUROVENTSUMMIT** is co-organised with ISKID, the Turkish Air Conditioning and Refrigeration Manufacturers' Association. It aims at **#BuildingBridges** between manufacturers and consultants, planners, installers, trade associations and policy makers, between Europe, the East and beyond, towards more sustainable and circular products, and towards more socially and environmentally responsible industry.

Highlights include the Eurovent Innovation/HUB, a rich seminar programme focused on both ventilation and refrigeration organised by ISKID and TTMD (Turkish Society of HVAC and Sanitary Engineers) in English and Turkish and an interactive policy panel on the first night, which will build bridges between many different stakeholders in the industry. Stay tuned for updates on the speakers and soon to be launched registration via www.eurovent-summit.eu and the Eurovent LinkedIn page.

About Eurovent

Eurovent is Europe's Industry Association for Indoor Climate (HVAC), Process Cooling, and Food Cold Chain Technologies. Its members from throughout Europe represent more than 1.000 organisations, the majority small and medium-sized manufacturers. Based on objective and verifiable data, these account for a combined annual turnover of more than 30bn EUR, employing around 150.000 people within the association's geographic area. This makes Eurovent one of the largest cross-regional industry committees of its kind. The organisation's activities are based on highly valued democratic decision-making principles, ensuring a level playing field for the entire industry independent from organisation sizes or membership fees.

Our Member Associations

Our Member Associations are major national sector associations from Europe that represent manufacturers in the area of Indoor Climate (HVAC), Process Cooling, Food Cold Chain, and Industrial Ventilation technologies.

The more than 1.000 manufacturers within our network (Eurovent 'Affiliated Manufacturers' and 'Corresponding Members') are represented in Eurovent activities in a democratic and transparent manner.
