## **Eurovent India Expert Workshop ends on a good note**

**New Delhi, 03 May 2023. Eurovent India's Expert Workshop, which focused on energy efficient Indoor Air Quality solutions, concluded on a successful note. The first local workshop welcomed more than 160 key HVAC industry stakeholders and senior consultants.**

Organised by Eurovent's local Indian Working Group, comprised of leading local and international HVACR companies, the Workshop organised on 12 April 2023 focused on technical topics related to Air Handling Units, energy efficiency and benefits of air filtration. The event consisted of insightful and detailed presentations from many industry's experts.

The participants also had the opportunity to obtain information on the latest standards and certification programmes for Air Handling Units and Air Filters for hot and humid climates, as well as industry recommendations for minimum requirements for Air Handling Units. The workshop concluded with an open networking session between the participants.

Devraj Singh, Chairman of Eurovent India, stated: "I would personally like to thank all the 160 attendees from all over India and abroad for such a great turnout at our very first event in the region. The event would not have come into fruition without our partners' support in promoting our activities. A great token of appreciation goes to our members for their commitment, providing expert content and for their enthusiastic involvement in enhancing sustainable and energy efficient technologies."

## About Eurovent

Eurovent is Europe's Industry Association for Indoor Climate (HVAC), Process Cooling, and Food Cold Chain Technologies. Its members from throughout Europe represent more than 1.000 organisations, the majority small and medium-sized manufacturers. Based on objective and verifiable data, these account for a combined annual turnover of more than 30bn EUR, employing around 150.000 people within the association's geographic area. This makes Eurovent one of the largest cross-regional industry committees of its kind. The organisation's activities are based on highly valued democratic decision-making principles, ensuring a level playing field for the entire industry independent from organisation sizes or membership fees.

## Our Member Associations

Our Member Associations are major national sector associations from Europe that represent manufacturers in the area of Indoor Climate (HVAC), Process Cooling, Food Cold Chain, and Industrial Ventilation technologies.

The more than 1.000 manufacturers within our network (Eurovent 'Affiliated Manufacturers' and 'Corresponding Members') are represented in Eurovent activities in a democratic and transparent manner.
