Re/genT has joined Eurovent as its newest member

Brussels, Helmond, 06 February 2024. Re/genT B.V. has formally joined Eurovent as its newest Associate Member. The organisation specialises on refrigeration, air conditioning and heat pumps, with emphasis on green innovations and energy efficiency.

Re/genT B.V. has its own R&D and testing laboratory for modern research and development activities. They conduct verification of Energy Labelling and Ecodesign requirements for domestic and commercial refrigerators and freezers, and are actively involved in various standardisation committees. Re/genT also provides development and consultancy services to improve the energy efficiency of these appliances. In addition, they are a supplier of domestic and commercial refrigerator climate rooms with measurement equipment and software, as well as test rigs of refrigeration system components, such as compressor calorimeters.

Mr Patrick Beks, Director and Co-Owner of Re/genT, remarked: "We are extremely excited for the opportunity to join Eurovent and thank the association Board of Directors for their approval. We are convinced that active participation and collaboration within Eurovent is a great opportunity for increasing our professional network and for sharing experiences related to aspects such as energy efficiency, regulation and standardisation."

Is your organisation interested in becoming a member of our globally known industry association? All relevant information is available at www.eurovent.eu. In case of any questions, contact the Eurovent Team via secretariat@eurovent.eu.

About Eurovent

Eurovent is Europe's Industry Association for Indoor Climate (HVAC), Process Cooling, and Food Cold Chain Technologies. Its members from throughout Europe represent more than 1.000 organisations, the majority small and medium-sized manufacturers. Based on objective and verifiable data, these account for a combined annual turnover of more than 30bn EUR, employing around 150.000 people within the association's geographic area. This makes Eurovent one of the largest cross-regional industry committees of its kind. The organisation's activities are based on highly valued democratic decision-making principles, ensuring a level playing field for the entire industry independent from organisation sizes or membership fees.

Our Member Associations

Our Member Associations are major national sector associations from Europe that represent manufacturers in the area of Indoor Climate (HVAC), Process Cooling, Food Cold Chain, and Industrial Ventilation technologies.

The more than 1.000 manufacturers within our network (Eurovent 'Affiliated Manufacturers' and 'Corresponding Members') are represented in Eurovent activities in a democratic and transparent manner.
