ATREA has joined Eurovent

Czech leader in ventilation and heat recovery becomes part of Europe's HVACR sector association

Brussels, Jablonec nad Nisou, 2 May 2018. Following a formal approval by the Eurovent Board of Directors, ATREA s.r.o. has officially joined the Eurovent Association. Based in the Czech Republic in the city Jablonec nad Nisou, the company is a leader in the production of ventilation and heat recovery equipment and home to a team of top-quality, trained professionals.

Since its foundation in 1990, the basic principle of ATREA is to decrease the operational energy demand of air-handling equipment – mainly through the use of state-of-the-art heat recovery exchangers, built-in controls and a gradual transition to fully automatic ventilation control systems – all of which it produces itself.

ATREA's CEO Daniel Morávek states: "Through joining the Eurovent Association and its vast network of associations and manufacturers across Europe, we are underlining our ambition as a leading European manufacturer in our sector. Our central location in Europe and high level of innovation allows us to provide high-quality equipment in a short time to clients all over the continent."

Morten Schmelzer, Executive Director at Eurovent adds: "We are very proud to welcome ATREA to the Eurovent family. Through the Eurovent Regional Office in Prague, our association is close to manufacturers in Central and Eastern Europe, understands local economies, and can support members in their mother tongue concerning important issues such as EU legislation and export."

Eurovent is Europe's Industry Association for Indoor Climate (HVAC), Process Cooling, and Food Cold Chain Technologies. Its members from throughout Europe, the Middle East and Africa represent more than 1.000 companies, the majority small and medium-sized manufacturers. For more information on Eurovent membership opportunities, visit www.eurovent.eu or contact us on LinkedIn.

About Eurovent

Eurovent is Europe's Industry Association for Indoor Climate (HVAC), Process Cooling, and Food Cold Chain Technologies. Its members from throughout Europe, the Middle East and Africa represent more than 1.000 companies, the majority small and medium-sized manufacturers. Based on objective and verifiable data, these account for a combined annual turnover of more than 30bn Euros, employing around 150.000 people within the association's geographic area. This makes Eurovent one of the largest cross-regional industry committees of its kind. The organisation's activities are based on highly valued democratic decision-making principles, ensuring a level-playing field for the entire industry independent from organisation sizes or membership fees.

Eurovent's roots date back to 1958. Over the years, the Brussels-based organisation has become a well-respected and known stakeholder that builds bridges between manufacturers it represents, associations, legislators and standardisation bodies on a national, regional and international level. While Eurovent strongly supports energy-efficient and sustainable technologies, it advocates a holistic approach that also integrates health, life and work quality as well as safety aspects. Eurovent holds in-depth relations with partner associations around the globe. It is a founding member of the ICARHMA network, supporter of REHVA, and contributor to various EU and UN initiatives.

Our Members and 'Affiliated Manufacturers'

Our Members are national associations from Europe, the Middle East and Africa that are representing manufacturers in the area of Indoor Climate, Process Cooling, and Food Cold Chain technologies.

The more than 1000 companies within their networks (Eurovent 'Affiliated Manufacturers') can directly participate in Eurovent activities in a democratic and transparent manner.

For in-depth information and a list of all our members, visit www.eurovent.eu

Democratic decision-making

DEMOCRATIC DECISION-MAKING

- 

Activities rest upon democratic decision-making procedures between members and their representatives
- 

'Umbrella association' structure ensures broad and truly credible representation of our industry vis-à-vis policy makers
- 

Voting rights independent from amount of membership contributions or company sizes
