## CAREL is Connectivity Partner of the 2018 Eurovent Summit

### World leader of HVACR control solutions to showcase Connected Efficiency

**Brussels, Brugine, 21 June 2018. The manufacturer CAREL, world leader in control solutions for air-conditioning, refrigeration and heating, and systems for humidification and evaporative cooling, has become the official Connectivity Partner (sponsor) of the 2018 Eurovent Summit in Seville, Spain. At Europe's major gathering for key HVACR decision-makers, CAREL is going to emphasise its Connected Efficiency approach.**

The key themes, such as F-gas ready solutions, high efficiency and extensive connectivity, will be in the spotlight throughout CAREL's presentations during the Eurovent Summit. The Italian company will also be main partner of the Summits "60 Shades of Eurovent – special anniversary event" to celebrate the 60<sup>th</sup> anniversary of the Eurovent Association.

Biagio Lamanna, CAREL HVAC/R Knowledge Center Manager, states: "Since its first edition in 2014, the Eurovent Summit has been developing into Europe's biennial key event for our sector, bringing together all its major decision-makers and manufacturers of all sizes. As this year's Summit focuses on Connectivity, it is our ambition as a sponsor to put a particular focus on our complete IoT platform and services. Next to this, we also want you to have a great time networking. On the Thursday evening, we invite you to an unforgettable event at Hacienda el Vizir spiced with traditional courses and a spectacular Andalusian Flamenco Show."

This year's Eurovent Summit will see a particular focus on Southern European markets. Next to the anniversary event, highlights include the [Eurovent Innovation/HUB at the Naval Museum](#), a dedicated Workshop for Installers in Spanish by the Spanish federation [CONAIF](#), and the Spanish Industry Symposium organised by [AEFYT](#) and [AFEC](#) (in English and Spanish). During the latter, Ms Miriam Solana (HVAC/R Engineer at CAREL) is going to share experiences on IoT in the HVACR sector.

Tickets for the 2018 **EUROVENTSUMMIT** can now be purchased at [www.eurovent-summit.eu](http://www.eurovent-summit.eu) – same as the last times, affordable and not-for-profit oriented.

## About Eurovent

Eurovent is Europe's Industry Association for Indoor Climate (HVAC), Process Cooling, and Food Cold Chain Technologies. Its members from throughout Europe, the Middle East and Africa represent more than 1.000 companies, the majority small and medium-sized manufacturers. Based on objective and verifiable data, these account for a combined annual turnover of more than 30bn Euros, employing around 150.000 people within the association's geographic area. This makes Eurovent one of the largest cross-regional industry committees of its kind. The organisation's activities are based on highly valued democratic decision-making principles, ensuring a level-playing field for the entire industry independent from organisation sizes or membership fees.

Eurovent's roots date back to 1958. Over the years, the Brussels-based organisation has become a well-respected and known stakeholder that builds bridges between manufacturers it represents, associations, legislators and standardisation bodies on a national, regional and international level. While Eurovent strongly supports energy-efficient and sustainable technologies, it advocates a holistic approach that also integrates health, life and work quality as well as safety aspects. Eurovent holds in-depth relations with partner associations around the globe. It is a founding member of the ICARHMA network, supporter of REHVA, and contributor to various EU and UN initiatives.

## Our Members and 'Affiliated Manufacturers'

Our Members are national associations from Europe, the Middle East and Africa that are representing manufacturers in the area of Indoor Climate, Process Cooling, and Food Cold Chain technologies.

The more than 1000 companies within their networks (Eurovent 'Affiliated Manufacturers') can directly participate in Eurovent activities in a democratic and transparent manner.

For in-depth information and a list of all our members, visit [www.eurovent.eu](http://www.eurovent.eu)

## Democratic decision-making

**DEMOCRATIC DECISION-MAKING**

-   
Activities rest upon democratic decision-making procedures between members and their representatives
-   
"Umbrella association" structure ensures broad and truly credible representation of our industry vis-à-vis policy makers
-   
Voting rights independent from amount of membership contributions or company sizes
