Dr. Marc Schmidt (AAF) becomes Chairman of Eurovent Product Group 'Air Filters'

Dr. Thomas Caesar (Freudenberg Filtration Technologies) commences second term as group's Vice-Chairman

Brussels, 06 October 2020. During its meeting on 29 September 2020, the Eurovent Product Group 'Air Filters' (PG-FIL) elected Dr. Marc Schmidt (Vice President Technologies Europe, AAF International) as its new Chairman. He is joined by Dr. Thomas Caesar (Director Global Filter Engineering, Freudenberg Filtration Technologies), who was re-elected for his second term as PG-FIL Vice-Chairman.

PG-FIL met in a full-day online session on Tuesday, 29 September 2020, with a focus on regulatory updates under Ecodesign and REACH, and the revision of several Eurovent Air Filter Recommendations. The group elected Dr. Marc Schmidt as its new Chairman for the next two-year term. He will succeed Mr Jan Andersson of Camfil, who served as PG-FIL Chairman for many years. Dr. Thomas Caesar was unanimously re-elected as the group's Vice-Chairman, continuing his role for the next two years.

Dr. Marc Schmidt, new Chairman of PG-FIL, stated: "Correct air filtration is more crucial than ever for the health and well-being of building occupants. Under the banner of Eurovent, it is our duty to convey this message to the market, to the policymakers, and to the public, and to raise awareness of the importance of clean and healthy indoor air. I am humbled that the Product Group 'Air Filters', which represents manufacturers from all over Europe, has vested its trust in me to lead the charge on this."

The next meeting of PG-FIL is scheduled for March 2021. Given the continued uncertainty around the public health situation, the exact date and location of the meeting will be determined at a later stage. All updates will be timely published on www.eurovent.eu.

About Eurovent

Eurovent is Europe's Industry Association for Indoor Climate (HVAC), Process Cooling, and Food Cold Chain Technologies. Its members from throughout Europe represent more than 1.000 organisations, the majority small and medium-sized manufacturers. Based on objective and verifiable data, these account for a combined annual turnover of more than 30bn EUR, employing around 150.000 people within the association's geographic area. This makes Eurovent one of the largest cross-regional industry committees of its kind. The organisation's activities are based on highly valued democratic decision-making principles, ensuring a level playing field for the entire industry independent from organisation sizes or membership fees.

Our Member Associations

Our Member Associations are major national sector associations from Europe that represent manufacturers in the area of Indoor Climate (HVAC), Process Cooling, Food Cold Chain, and Industrial Ventilation technologies.

The more than 1.000 manufacturers within our network (Eurovent 'Affiliated Manufacturers' and 'Corresponding Members') are represented in Eurovent activities in a democratic and transparent manner.
