J2 Innovations joins Eurovent as newest Associate Member

The European HVACR industry association extends its scope of representation

Brussels, 03 November 2020. Following a formal approval of the Eurovent Board of Directors, J2 Innovations, provider of control and management software for HVACR equipment, has joined Eurovent (Association for Indoor Climate, Process Cooling and Food Cold Chain Technologies) as its newest Associate Member.

Established in 2008, J2 Innovations is a provider of control and management software for HVACR equipment. It created the FIN Framework – the next generation software platform for building automation and IoT. FIN enables their partners to bring new products to the market faster, with the latest technology for competitive advantage.

Mr Chris Irwin, VP Sales EMEA and Global Marketing at J2 Innovations states: "At J2 Innovations, we are committed to supporting the indoor climate and HVAC industry through our open platform for smart buildings, smart equipment and IoT. We are delighted to be an Associate Member of Eurovent as we strongly believe in cooperation and collaboration in order to help build a greener and better world. We look forward to working with Eurovent to help shape the future of our industry.'

Mr Felix Van Eyken, Secretary General of Eurovent, adds: "We are proud to welcome J2 Innovations to the Eurovent family. It is great to see our association grow with the different stakeholders of the European HVACR industry coming together around their common objectives."

Eurovent's Associate Members are organisations that are engaged in activities related to sectors covered by the association. Associate Membership is open to, for example, associations of engineers and consultants, exhibition organisers, laboratories, universities, or software providers. All Eurovent Associate Members can be found on the [Eurovent website](https://www.eurovent.eu). For more information on membership opportunities, contact the Eurovent Secretariat via secretariat@eurovent.eu.

About Eurovent

Eurovent is Europe's Industry Association for Indoor Climate (HVAC), Process Cooling, and Food Cold Chain Technologies. Its members from throughout Europe represent more than 1.000 organisations, the majority small and medium-sized manufacturers. Based on objective and verifiable data, these account for a combined annual turnover of more than 30bn EUR, employing around 150.000 people within the association's geographic area. This makes Eurovent one of the largest cross-regional industry committees of its kind. The organisation's activities are based on highly valued democratic decision-making principles, ensuring a level playing field for the entire industry independent from organisation sizes or membership fees.

Our Member Associations

Our Member Associations are major national sector associations from Europe that represent manufacturers in the area of Indoor Climate (HVAC), Process Cooling, Food Cold Chain, and Industrial Ventilation technologies.

The more than 1.000 manufacturers within our network (Eurovent 'Affiliated Manufacturers' and 'Corresponding Members') are represented in Eurovent activities in a democratic and transparent manner.
