Eurovent PG-CT elects new Vice-Chairman

Mr Frank Stocker (Gohl-KTK) succeeds Mr Doic Hordern (JACIR)

Brussels, 31 March 2021. During its recent online meeting, the Eurovent Product Group 'Evaporative Cooling Equipment' (PG-CT) elected Mr Frank Stocker (Managing Director, Gohl-KTK) as the successor of Mr Doic Hordern (CEO, JACIR) in the role of Vice-Chairman of the group. Mr Laurent Petiot (General Manager France Benelux Maghreb, BAC) continues as Chairman of PG-CT.

The Eurovent Product Group 'Evaporative Cooling Equipment' recently met in a fruitful online session. The meeting included Chairman and Vice-Chairman elections, as well as redefinition of the group's scope to include all hybrid and adiabatic technologies. PG-CT is turning its attention to the review of Ecodesign Regulation for professional refrigeration (ENTR Lot 1), in which new efficiency requirements are being considered for process chillers connected to an evaporative condenser.

Mr Frank Stocker, newly elected PG-CT Vice-Chairman, stated: "With the review of the Ecodesign Regulation for professional refrigeration around the corner, we are facing a great opportunity to promote the energy saving potential of evaporative cooling technologies. By making the Eurovent voice heard in the review, we can support the EU to achieve its climate targets."

Mr Laurent Petiot, Chairman of PG-CT, added: "The European industry faces important challenges, regulations are getting stringent and Eurovent is instrumental in supporting the manufacturers. Our Product Group pledges to closely monitor the review process to ensure the highest energy efficiency requirements for Europe."

PG-CT unites manufacturers of evaporative and adiabatic cooling equipment from around Europe and is supported by Eurovent Member Associations on a national level. Its main tasks consist of advocating on European level, developing Eurovent Recommendations, generally promoting the industry and export initiatives, and diminishing unfair trade barriers inside and outside Europe. Manufacturers interested in joining PG-CT can get in touch with the Eurovent Secretariat via secretariat@eurovent.eu.

About Eurovent

Eurovent is Europe's Industry Association for Indoor Climate (HVAC), Process Cooling, and Food Cold Chain Technologies. Its members from throughout Europe represent more than 1.000 organisations, the majority small and medium-sized manufacturers. Based on objective and verifiable data, these account for a combined annual turnover of more than 30bn EUR, employing around 150.000 people within the association's geographic area. This makes Eurovent one of the largest cross-regional industry committees of its kind. The organisation's activities are based on highly valued democratic decision-making principles, ensuring a level playing field for the entire industry independent from organisation sizes or membership fees.

Our Member Associations

Our Member Associations are major national sector associations from Europe that represent manufacturers in the area of Indoor Climate (HVAC), Process Cooling, Food Cold Chain, and Industrial Ventilation technologies.

The more than 1.000 manufacturers within our network (Eurovent 'Affiliated Manufacturers' and 'Corresponding Members') are represented in Eurovent activities in a democratic and transparent manner.
