Norwegian ventilation manufacturer joins Eurovent

Brussels, Bjerkreim, 11 November 2021. Covent AS has formally joined Eurovent as a Corresponding Member. With this newest member, the Eurovent family grows by one of Norway's leading manufacturers specialised in the field of ventilation.

Covent was established in 1972 and, since the 90s, it has had a major focus on housing ventilation units and expanding its design and fabrication of air handling units for indoor and outdoor installation, for onshore and offshore market production. Covent has their headquarters located in Bjerkreim, which produces CK indoor and outdoor units for different types of buildings, as well as technical rooms and rooftop units. The company acquired their first Eurovent certification in 2000.

Following the approval of the membership, Mr Juan Silvera, Technical Manager of Covent, states "We are honoured to be member of a European industry association which is fully oriented towards achieving energy efficiency and sustainable solutions that enable a better quality of life in Europe and beyond. We are delighted to be on the same playing field with other important members of the Eurovent family in achieving environmentally sustainable solutions and look forward to working well with them."

Is your organisation interested in becoming a member of our globally known industry association? All relevant information is available at www.eurovent.eu. In case of any questions, contact the Eurovent Team via secretariat@eurovent.eu.

About Eurovent

Eurovent is Europe's Industry Association for Indoor Climate (HVAC), Process Cooling, and Food Cold Chain Technologies. Its members from throughout Europe represent more than 1.000 organisations, the majority small and medium-sized manufacturers. Based on objective and verifiable data, these account for a combined annual turnover of more than 30bn EUR, employing around 150.000 people within the association's geographic area. This makes Eurovent one of the largest cross-regional industry committees of its kind. The organisation's activities are based on highly valued democratic decision-making principles, ensuring a level playing field for the entire industry independent from organisation sizes or membership fees.

Our Member Associations

Our Member Associations are major national sector associations from Europe that represent manufacturers in the area of Indoor Climate (HVAC), Process Cooling, Food Cold Chain, and Industrial Ventilation technologies.

The more than 1.000 manufacturers within our network (Eurovent 'Affiliated Manufacturers' and 'Corresponding Members') are represented in Eurovent activities in a democratic and transparent manner.
