## Vertiv becomes Eurovent's newest member

**Brussels, Padua, 11 January 2022. Eurovent extends its warm welcome to its newest member Vertiv. It is one of the leading global providers of critical digital infrastructure and continuity solutions.**

Vertiv solves the most important challenges facing today's data centres, communication networks and commercial and industrial facilities with a portfolio of power, cooling and IT infrastructure solutions and services that extends from the cloud to the edge of the network. The company is an industry leader in high-performance thermal management solutions for critical spaces, including commercial and industrial cooling solutions of custom air handling, air-cooled, and evaporative-cooled rooftop DX units, indirect and direct evaporative cooling.

Mario Scattolin, Global Compliance Director of Vertiv states: "We are proud to become a Corresponding Member of Eurovent, one of Europe's leading HVACR industry associations which also helps certify the performance of our IT cooling products. Vertiv has been engineering thermal management solutions for over 50 years. By joining Eurovent, we look forward to working together to develop new solutions for efficient and sustainable systems with the latest standards for the environment and the industry as a whole."

Is your organisation interested in becoming a member of our globally known industry association? All relevant information is available at [www.eurovent.eu](http://www.eurovent.eu). In case of any questions, contact the Eurovent Team via [secretariat@eurovent.eu](mailto:secretariat@eurovent.eu).

## About Eurovent

Eurovent is Europe's Industry Association for Indoor Climate (HVAC), Process Cooling, and Food Cold Chain Technologies. Its members from throughout Europe represent more than 1.000 organisations, the majority small and medium-sized manufacturers. Based on objective and verifiable data, these account for a combined annual turnover of more than 30bn EUR, employing around 150.000 people within the association's geographic area. This makes Eurovent one of the largest cross-regional industry committees of its kind. The organisation's activities are based on highly valued democratic decision-making principles, ensuring a level playing field for the entire industry independent from organisation sizes or membership fees.

## Our Member Associations

Our Member Associations are major national sector associations from Europe that represent manufacturers in the area of Indoor Climate (HVAC), Process Cooling, Food Cold Chain, and Industrial Ventilation technologies.

The more than 1.000 manufacturers within our network (Eurovent 'Affiliated Manufacturers' and 'Corresponding Members') are represented in Eurovent activities in a democratic and transparent manner.
