CEIS is Eurovent Summit BridgeBuilding Supporter

Brussels, Madrid, 05 July 2022. For the third time in a row, CEIS (Testing, Innovation and Services Centre / Centro de Ensayos, Innovación y Servicios) has become an official BridgeBuilding Supporter (sponsor) of the 2022 Eurovent Summit in Antalya, Turkey.

[CEIS](#) is a Spanish testing, innovation and service centre offering well-recognised testing programmes for air conditioning and heat pump appliances. This year, CEIS has become a supporter of the Eurovent Summit for the third edition in a row. The Madrid-based laboratory will also be a partner of an interactive policy panel on the first night, which will build bridges between the most crucial stakeholders in the industry and elaborate on how to make our industry stronger thanks to legislation, policies, certification, new technologies and market surveillance.

Mr Federico Muñoz Sánchez, Deputy General Director at CEIS, remarked: “CEIS is proud to be a sponsor of the Eurovent Summit for the third consecutive time, the most important international event for the air conditioning and refrigeration industry in Europe, the Middle East and North Africa. We are focussing our attention to make the construction of bridges between our laboratory and the powerful Turkish air conditioning and ventilation sector a reality. We hope that the Eurovent Summit is a magnificent opportunity to strengthen the existing relationship.”

This year’s **EUROVENTSUMMIT** is co-organised with [ISKID](#), the Turkish Air Conditioning and Refrigeration Manufacturers’ Association. It aims at **#BuildingBridges** between manufacturers and consultants, planners, installers, trade associations and policy makers, between Europe, the East and beyond, towards more sustainable and circular products, and towards more socially and environmentally responsible industry.

Apart from the above, other highlights include the [Eurovent Innovation/HUB](#), a rich seminar programme focused on both ventilation and refrigeration organised by ISKID and [TITMD](#) (Turkish Society of HVAC and Sanitary Engineers) in English and Turkish or “Legends of Eurovent” event to celebrate the ongoing generation change within the industry and honour significant legends that have contributed to its development. Stay tuned for updates on the speakers and soon to be launched registration via www.eurovent-summit.eu and the [Eurovent LinkedIn page](#).

About Eurovent

Eurovent is Europe's Industry Association for Indoor Climate (HVAC), Process Cooling, and Food Cold Chain Technologies. Its members from throughout Europe represent more than 1.000 organisations, the majority small and medium-sized manufacturers. Based on objective and verifiable data, these account for a combined annual turnover of more than 30bn EUR, employing around 150.000 people within the association's geographic area. This makes Eurovent one of the largest cross-regional industry committees of its kind. The organisation's activities are based on highly valued democratic decision-making principles, ensuring a level playing field for the entire industry independent from organisation sizes or membership fees.

Our Member Associations

Our Member Associations are major national sector associations from Europe that represent manufacturers in the area of Indoor Climate (HVAC), Process Cooling, Food Cold Chain, and Industrial Ventilation technologies.

The more than 1.000 manufacturers within our network (Eurovent 'Affiliated Manufacturers' and 'Corresponding Members') are represented in Eurovent activities in a democratic and transparent manner.
